- Designed to inhibit tampering
- Highest sense of food security

 **VIGOUR GROUP**

Full Line Disposable Paper & Plastic Packaging MFG.

VG's patented BUT-N-LOC Tamper Evident Button Lock provides superior security. Unlike other containers that require a plastic tear-off strip, our container has no external pieces to throw away which makes for safer and smoother handling. It can be made from post-consumer recycled PET (rPET) according to customer needs.

These containers will not only enhance the look of your product with their clarity but also feature a patented lock button tab feature which inhibits tampering, ensures quality and eliminates the need for shrink bands and wrap labels.

The engineered tight rim seal and audible click of the lock button tab promise a leak-resistant experience.

The lock button tab fastens the top to the base of the container. If tampered with prior to purchase, the lock button tab will not be connected to the base and a clean, round hole in the closure tab will be evident.
